Feedback from Students about the Educational Program

Dear student,

We trust that you had a pleasant learning experience during the academic year 2018-19. We would greatly value your honest feedback and suggestions which will help us to improve the teaching learning experience at College of Nursing.

Course of study : B.Sc. Nursing
 Year of the Course : I / II / III / IV

This feedback format has 5 sections related to the learning experience in College of Nursing. Tick in the appropriate column of the 5 points likert scale ranging from 1 to 5 considering 1 = Poor, 2 = Fair, 3 = Good, 4 = Very Good, 5 = Excellent, Please give your feedback freely. We assure you that it will be kept confidentially.

1. Course of Study : B.Sc. Nursing

Section- I: Classroom Teaching

S.No	Classroom Teaching	1	2	3	4	5	Remarks
1	Subject content and clarity			✓			Good
2.	Teaching methods				✓		Very good
3.	Use of A.V aids		✓				Only PPT are in use except few teachers who take extra effort.
4.	Motivation from teachers to learn			✓			Good
5.	Assignments given			✓			Instead of Good
6.	Completion of the portions on time				✓		Very good
7.	Evaluation of Class Tests				✓		Very good.
8.	Comments/suggestions: Since most of our teachers speak proper English and teach us in that medium we are able to understand the content clearly. Most teachers prefer Powerpoint presentations even for a boring topic. Activities or discussions can be planned for such topics. Instead of one or two big assignments small assignments can be given every now and then. All our tests papers are corrected and evaluated fairly and we are able to know where we stand.						

Section- II: Clinical Experience

S.No	Clinical Experience	1	2	3	4	5	Remarks
1.	Orientation on objectives			✓			
2	Guidance and help received			✓			
3	Usefulness of clinical teaching					✓	
4	Relevant patient care assignment			✓			
5	Corrections received related to learning		✓				
6	Demonstration of the procedures			✓			
7	Clinical environment			✓			
8	Performance based clinical evaluation		✓				
9.	Which clinical posting gave you the maximum learning opportunities and why? My posting in Qb East (Pediatrics), labour room, C ward, KN ICU gave me enough opportunities to learn. And Accident & Emergency posting gave me confidence in few procedures.						
10	Which clinical posting gave you the least learning opportunities and why? Posting in MHC where patients will have to go to OT classes, we simply stand by the patients door side. No relative prefers to talk to us over a period of 1 week.						
11	Comments/suggestions: We as 4 th year students felt that there are times we stay in wards without any assignments. Not in all wards, we are occupied with the entire clinical house. Textbooks or teachings can be arranged during that times.						

Students remain standing next to patient even after completion of patient care. It will be good if they are instructed what they can do after their clinical patient care is over.

S. No	Library Services	1	2	3	4	5	Remarks
1.	Resources		✓				
2.	Guidance from the librarians					✓	
3.	Conducive environment					✓	
4.	Comments/suggestions: We would like to have online access to textbooks (atleast textbooks we use) and other reference books. Every other college has access to their library website.						

Section- IV: Hostel Life

S.No	Hostel Life	1	2	3	4	5	Remarks
1.	General facilities				✓		
2.	Food		✓				
3.	Safety					✓	
4.	Cleanliness					✓	
5.	Comments/suggestions: The facilities in hostel are wonderful but it is not maintained. Frequent visits of people who are knowledgeable about the carpentry, electricity and other facilities to be done to maintain it a good place.						

Section- V: General Opinion

S.No	General Opinion	1	2	3	4	5	Remarks
1.	Transport facilities		✓				
2.	Counselling services				✓		
3.	Health Services		✓				
4.	Foster parent scheme			✓			
5.	Spiritual enrichment				✓		
6.	Recreation facilities				✓		
7.	Comments/suggestions: At times not able to go to duty on time. Shuttle facilities not available for students. No driver prefers to take a big bus for one student.. When students visit clinic with mild symptoms they are not assessed or diagnosed properly. Only when it becomes severe actions are taken. When students have a fracture or anything that causes physical immobility there must be an attendant to take care. Local students can be looked after but students from other far places do have that earning. Only before two years when foster meeting was conducted I met my foster parent. I would suggest to take more frequent meetups with foster parents. If not possible, atleast once every year.						

College of Nursing, Christian Medical College, Vellore - 4
B.Sc. Nursing IV year

Give your comments and suggestions about the following subjects.

Midwifery and Obstetrical Nursing

S.No	Classroom Teaching	1	2	3	4	5
1.	Subject content and clarity					✓
2.	Teaching methods			✓		
3.	Use of A.V aids			✓		
4.	Motivation from teachers to learn			✓		
5.	Assignments given			✓		
6.	Completion of the portions on time				✓	
7.	Evaluation of Class Tests					✓
8.	<p>Comments/suggestions:</p> <p>Since we learn the practical content together with theory we are able to understand it better. Our teachers have a pre planned strategy to teach Midwifery & Obs Nursing which is to be appreciated.</p>					

Community Health Nursing II

S.No	Classroom Teaching	1	2	3	4	5
1.	Subject content and clarity			✓		
2.	Teaching methods		✓			
3.	Use of A.V aids		✓			
4.	Motivation from teachers to learn			✓		
5.	Assignments given			✓		
6.	Completion of the portions on time				✓	
7.	Evaluation of Class Tests					✓
8.	<p>Comments/suggestions:</p> <p>Since community Health Nursing is not always interesting, lectures and classroom teaching can be modified to small discussions and other activities.</p>					

Management of Nursing Services and Education

S.No	Classroom Teaching	1	2	3	4	5
1.	Subject content and clarity			✓		
2.	Teaching methods			✓		
3.	Use of A.V aids			✓		
4.	Motivation from teachers to learn				✓	
5.	Assignments given		✗		✓	
6.	Completion of the portions on time				✓	
7.	Evaluation of Class Tests					✓
8.	<p>Comments/suggestions:</p> <p>As we are going to managing wards and duties after this, we really enjoyed and learnt a lot with the assignments we did. I would suggest to have assignments as such and the effort taken by our teachers to make this subject interesting is to be appreciated. Letting students discuss and get answers from them makes the class lively.</p>					

Scripture :

Comments:

Felt that scripture teachers focus more on the theme they have chosen to speak.

Suggestions:

More topics related to present generation and situation can be discussed. Activities can also be incorporated.

Counseling

Comments:

As fourth year students not able to get counselling as we used to.

Lack of individual or one to one counselling sessions lead to small problems being summed to many people.

Suggestions:

Same like 1st, 2nd, 3rd year, we would prefer to have counselling sessions once every month even if we do not have block classes.

Individual counselling sessions where students can ventilate is much needed.

Thank you very much for giving your honest feedback.

Dr. Vathsala Sadan

Dean, College of Nursing
